### Meeting of the G. W. V. A.

A most successful Dinner was held in the Hotel, on Sunday last, when the Veterans' Association entertained the returned men in this district. Twenty-one covers were laid and the ex-fighters bombed their way thru to the last course, "mopping up" everything on their immediate front and inside of an hour from going "over-the-top" all their "objectives" had been reached, no casualties having been reported to headquarters.

The chef prepared an extra large cake for the occasion and it was tastily iced appropriately with flags, soldiers, etc., and a few words of welcome and praise.

After a short stay in the support trenches the order was given for the company to retire to the "rest billets" when the regular business meeting of the Association was held.

Considerable business was put thru and several resolutions discussed and passed. A plan was laid out for the Memorial Fund campaign, and a General Committee for this campaign was elected, composed of the following: Messrs G. Ryckman, C. Stewart and F. Piper.

A Sports Com. of Messrs C. Garrett, A. E. Walker and C. E. Blackley was also elected.

There are twenty-five names at present on the membership roll, with more being added as the local men return from overseas. The present members are J. C. Mayrs, G. Ryckman, C. O. Stewart, A. O. Gudim, F. Dencon, C. D. Garrett, J. T. McNish, E. O. Eisenman, A. Shannon, W. E. Woodward, J. R. Moore, F. H. Piper, Aug. Summers, A. E. Walker, T. Martin, J. S. Noad, C. E. Blackley, G. Cutts, J. A. Connah, P. Whitney, R. L. Edwards, W. Hunt, L. O. Gould, J. Tkelnko, C. Filephak.

One of the resolutions adopted, which was passed by the Winnipeg branch, has to do with the aliens in Canada and the future immigration policy. The resolution is too long to reprint here, but the main points are: That all unaturalized citizens be thoroly examined and it undesirable they should be deported; if considered desirable they should be required to sign a statement that they assume the full responsibility of Canadian Citizenship, including military service if necessary; educate their children in English according to Canadian law;

deportation of all aliens, whether naturalized or not, who foster sedition; that all immigrants be obliged to sign statement as above before being admitted into Canada; that preference be given to men and women from the United Kingdom wishing to immigrate to Canada; that the Order-in-Council prohibiting the entry into Canada of subjects of any enemy country remain in force.

## BUSY BIDEFORD

We hear that the name of our little town is to be changed to Amyas. The suggestion comes from official quarters and the people of Bideford are asked to express their opinion on the change of name. The word Amyas takes us back to the masterpiece of Charles Kingsley, "Westward Ho" of which story Amyas Leigh, a lad of good family, of valour, courtesy and all noble qualities, is the hero and centre. Bideford, North Devon, is described in the opening chapters of the book as "the little white town which slopes up from the broad tide river paved with yellow sands. Not only a pleasant country town, but one of the chief ports of England, as it furnished 7 ships to fight the Armada. It was the centre of a local civilization and enterprise."

We find a pleasant parallel in the little Canadian town of Bideford. It, too, is a "white" town, altho the meaning of the Canadian "white" is different to Kingsley. We have furnished men to fight the modern Armada and who shall deny we are the centre of a local civilization and enterprise?

We should like to lend our copy of Westward Ho to any reader. It contains photos of the real old English Bideford with its many arched bridge, the quay, and the home of Sir Amyas Leigh. Its a tale of stirring times and makes excellent reading for old and young.

The thanks of the Bideford Red Cross are due to the ladies of Compeer for their generous assistance in making up garments for the needs of the sick soldiers who are not yet out of hospital. We must comment on the beautiful work, the sewing and knitting evidently done by experts. We hope to send off a shipment in a week or so and if anyone has any work on hand kindly get it finished to include in the next parcel.

Will any good kind friend lend the Red Cross a buggy? We need to go around on Red Cross business, as for instance in the flu time, and we should greatly appreciate the loan of a buggy. A certain citizen has promised us his Ford when he buys himself the latest in Lizzies, but till that happy event we should be indeed grateful for a second-hand old fashioned buggy.

We are glad to know the flu is a mild type and trust the men folks will not take undue liberties with the period of convalescence and get around too soon. We are sorry to know the Simpson children are sick.

A car of cattle and hogs went out of Bideford, last week, and we hear the farmers were well pleased with the prices.

Mrs. Harry Shannon was a visitor last week in town.

We saw the Bideford Bunch of men folks at the Kirrie sale of Roy Spaulding's. One bachelor confided to us he had got a huge lid of a boiler, but no boiler to go with it. He didn't seem to know he had been bidding for it. Guess they caught you napping Mac. A lid is always a beginning towards the little grey horse in the west. The

next bid should be for the lily.

Miss Inkster and Miss Grace have gone to Coronation to spend Easter with their sister.

We wish our readers a happy Eastertide.

Certain small boys in Bideford have been overheard in their state secrets. We were told not to tell you that they are practising up a stage performance of Huck Finn and Tom Sawyer for the concert. Keep it dark please.

Every Farmer  
In This District  
Should Read The  
Nor'-West Farmer

Western Canada's Oldest Farm Paper

If you are already a subscriber you will want to renew your subscription for another year, and if you are not a subscriber to it you ought to be. No farmer in these days of high prices and labor shortage can afford to do anything but his very best. Through a good farm paper you will get ideas worth many times the small subscription price. Each issue of The Nor'-West Farmer is full of valuable information that any up-to-date farmer can use to his own direct advantage. It is edited for the whole farm family. If any reader wants information on any subject relating to either their farm problems or anything else The Nor'-West Farmer information bureau will get that information for them. Their official veterinarian and legal adviser is at the service of every subscriber, free of all charge. If you have a weed problem, a soil drifting problem, a feed problem, tractor, automobile, or gas engine trouble of any kind, read The Nor'-West Farmer, and you will soon get a wealth of ideas from the experience of other farmers who have experienced and solved similar difficulties. The Nor'-West Farmer is a "round-table" around which the best farmers of Western Canada meet. Will you be one of them?

## Note and Comment

Postmaster Gould put across  
another one, the other day,  
when he announced that he had  
a new Savings Stamp on sale.  
He now stocks War Savings  
and Daylight Saving Stamps.

The average man doesn't tell  
his wife everything that hap-  
pens. He events it up by telling  
her a lot of things that didn't  
happen.

The local paper is not a lux-  
ury, it is a necessity if the dis-  
trict gets all out of life it should.  
However, it cannot be run on  
wind alone and must have the  
undivided support of all in the  
district. Are you doing your  
share to keep the Tribune in  
Allen? Do you even keep your  
subscription paid up, let alone  
in advance? Do you use its col-  
umns for advertising something  
you wish the people to know  
about or do you write a notice  
and hang it up in the Post  
Office? Do you help in keeping  
here by patronizing the business  
men who use its columns every  
week or are you tied to the  
business man whose name sel-  
dom appears in the paper. You  
can assist in keeping the Tri-  
bune in Allen by paying your  
subscription, inserting little no-  
tices once in a while, getting  
your job work done here, and  
buying as much as you can  
through the merchants who ad-  
vertise. If a man can't see the  
value of advertising it is up to  
the people who appreciate a  
local paper to make him see it.  
If your dealer or merchant  
don't help you to keep the paper  
here go to the one who will.  
—Allen Tribune.

The local branch of the G. W.  
V. A. is making excellent pro-  
gress, and there is now a mem-  
bership of twenty-five. Before  
the summer is over most or all  
of the soldiers, who went from  
this district, will be home again  
and the Veterans expect to  
have at least sixty members en-  
rolled this year. When the  
crop prospects warrant doing  
so, a vigorous campaign will be  
put on to raise the necessary  
funds for the erection of a  
Memorial Building, which will  
be the headquarters of the local  
branch of the Association.

Through the kindness of Ted  
Stewart the Veterans have the  
use of the Hotel Reception  
Room, for their meetings.

The new list of publications  
of the Department of Agricul-  
ture at Ottawa contains titles  
of about three hundred bul-  
letins, circulars, and other pam-  
phlets that deal with agricul-  
tural practices. These cover  
the whole range of agricultural  
and horticultural pursuits, in-  
cluding dairying, field crops,  
live stock, gardens, poultry, in-  
sects and plant disease, farm  
building construction, farm  
machinery and many other top-  
ics. The subjects are arranged  
alphabetically under general  
titles. Not only are the lists  
themselves available from the  
Publications Branch of the  
Department but any of the  
publications therein contained.

A mossback, gentle reader, is  
a cross between the fifth cen-  
tury and the fifteenth. He is  
found in fossilized form in near-  
ly every place on the map and  
still lives. He raises his rents,  
detests a boom, loves to have  
other people bear all the taxes,  
bates to have a new enter-prise,  
despises anything that smacks  
of progress and wont help a  
newspaper boom its own town.  
There are several varieties of  
mossbacks but none of much  
use to a town. They are as  
drones to a hive of bees and  
like the industrious bee the live  
man should avoid these drones  
and patronize those who are an  
advantage to the place they  
reside in.

Sergt (drilling recruits) Com-  
pany, "Shun! Lift your left leg  
and hold it straight out in front  
of you." One held up his right  
leg by mistake. This brought  
his right-hand companion's left  
leg and his own right leg close  
together. The Sergt seeing this  
exclaimed, angrily:

"And who is that blooming  
galoot over there holding up  
both legs?"

## Economical—

## Because It Covers More

EVEN if this paint were sold at a price half as high  
again as any other—it would still be the economical  
paint to use on your house. In sheer covering capacity  
it has no equal. A gallon of it goes so far that you'll  
buy less of it and yet do more with it.

## B-H PAINT

70% Pure White Lead  
(Standard's Calcium Sulfate)  
30% Pure White Zinc  
100% Pure Paint

This paint is guaranteed to possess as its important  
basis the above formula which we inscribe on every can.  
The result of such a formula is all that you could ask in  
brilliance of color and in proper "body"—a paint which  
gives a fine lasting finish, excelling all others in "cover-  
ing capacity" and in durability. Paint with B-H "Eng-

a coat of ordinary paint will last but a few months.
